Closed on Major Holidays

Tasting All Day, Every Day!

If you're ready to try something unique within the realm of wine, then we may be able to satisfy your interest. Just as the quote to the left mentions, the name to keep in mind is Melomel - a rather special type of all natural wine that is created not only from grapes, but also a generous portion of honey.

Melomel has some distinct differences from the usual commercial wines. The first to make a notable impression is likely aroma; it's sweetly pungent scent can mesmerize an unfamiliar nose and nearly intoxicate without even a sip. The intensity of smell is surpassed only by that of taste. Robust port or brandy are often more akin to the flavours found coalescing in Melomel than those of other table wines.

By using old-fashioned European methods of winemaking, we have produced a variety of Red, White, and Rose Melomels. All vintages rely on oak barrels, receive minimal filtering, and have no added sulfites. We invite you to visit our winery and see for yourself how rustic, yet innovative, our techniques are. And one last word of advice if you do plan on trying Melomel:

Don't expect ordinary wine.

Over 700 Varieties of Herbs & Perennials

Including

Annuals

Open Year-Round
Since 1982

Regular Hours

Mon-Sat....9 to 5
Sunday....11 to 5

Extended Hours

8 to 8
Every Day
during **May-June**

Closed on Major Holidays

Our business first began as a small herb farm in 1982, founded by Leigh Shields. Using horticultural techniques learned at the University of California - Santa Cruz's organic gardening program, his goal was to successfully live and grow in a way that was all too forgotten by industrialized society.

Slowly but surely, business expanded and became more specialized as we learned which plant varieties were viable in our region as well as the types most requested by our customers. Soon we started planting fields of flowers that could be cut and dried, allowing Leigh's wife Lillian to design beautiful dried arrangements for display in our gift shop.

By combining the seasonal greenhouse with a farm gift shop, we were able to create a reliable year-round business.
